About the University: The establishment of Uka Tarsadia University (UTU) in 2011 by the Bardoli Pradesh Kelavani Mandal (BPKM) is an effort towards meeting the growing demand for quality education. The University offers admissions in a comprehensive array of academic programs across the disciplines of Pharmacy, Management, Commerce, Architecture, Nursing, Physiotherapy, Computer Science, Engineering & Technology and Applied Sciences. The University provides educational opportunities to over 10000 students. More than 550 faculty members of the University represent an eclectic mix of professional and academic, national and international experiences. UTU has established MoUs with several Foreign Universities, like Cape Breton University (Canada), University of Ilorin (Nigeria), University of Prince Edward Island (Canada), etc.

About the Institute: Maliba Pharmacy College, a constituent institute of UTU, is located in the picturesque campus of Gopal Vidyanagar on Bardoli-Mahuva road. The college is approved by All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI). Our college has been ranked 37th Nationally by NIRF-MHRD Ranking of UGC in 2016-17. The college has state-of-the-art infrastructure and instrumental facilities providing a learning atmosphere for academic excellence. The college houses a voluminous library, classrooms with multimedia facilities, well equipped laboratories; CPCSEA approved animal house, modern computer and language labs. The college has its own sophisticated laboratory of instruments for the characterization and analysis of pharmaceuticals. The college offers B.Pharm., Pharm.D., M.Pharm. (Pharmaceutics, Quality Assurance, and Pharmacology) and Ph.D. programs.

About the Workshop: This workshop would enable participants to gain basic understanding of experimental design and their utility within related areas as a means of optimizing responses, making estimates and testing hypothesis. Participants will learn concepts related to various experimental designs and how to make inferences from the same. Any faculty members, post-graduate students and PhD scholars from pharmacy, chemistry, microbiology, biotechnology and para-medical institutes can attend this workshop.

In this one-day workshop, morning sessions will be held in a regular classroom/hall with presentations by the expert and it will provide ample opportunity for interaction. Afternoon sessions will be held in a computer laboratory. Each participant will have his/her own desktop/lap-top with appropriate software installed beforehand.
