For practical evaluation students will be evaluated for following criteria:

- 1) Experimental (work) planning and execution,
- 2) Results and interpretation,
- 3) Report / Journal
- 4) Understanding on the theory related to experiment.

Each month of the semester shall include 4 to 5 practical's.

Students shall be evaluated for criteria 1) and 2) for each practical and a score has to be given out of 10 after each practical.

Criteria 3) and 4) i.e. journals and viva/synopsis can be done once in each month.

For end of third month/semester can be conducted practical exam for 20 marks.

Note: Above all assessment are evaluated only one time.
