GUEST LECTURE REPORT

Date – 27/08/2026
Audience : B.Pharm, Pharm.D and M.Pharm 1st sem
Organized by: MPC & DCVPCP
Venue: Savita Auditorium - DCVPCP
Agenda : Orientation Programme 2026-2027
Guest Name – Ms. Priyanka Solanki

A guest lecture was organized for the newly admitted students to provide insights into career opportunities and professional growth in the clinical research field. The session was delivered by Ms. Priyanka Solanki, Site Enrollment and Engagement Lead 2, IQVIA RDS, an M.Pharm (Pharmacology) professional with 12 years of experience in the clinical trial lifecycle.

During the lecture, she discussed the clinical research career journey, day-to-day responsibilities, major stakeholders, and various career opportunities in clinical operations, medical writing, pharmacovigilance, data management, central monitoring, quality assurance, and project management. She also highlighted the key skills required for freshers, including communication, attention to detail, technological proficiency, curiosity, and ownership. Practical guidance on career growth, professional development, and common mistakes to avoid was also shared.

The session provided students with a practical understanding of the clinical research industry and its diverse career pathways. It was an informative and valuable interaction that motivated students to explore clinical research as a potential career option.
